Role

This is a first-class opportunity for a highly motivated business student, who has an interest in International Trade and exceptional communication skills, to work within this global agri-technology company that specialises in sustainable solutions for the agriculture, food, and feed industries. Mentored throughout by the Export Manager in this fast growing division of the business, you will gain hands-on experience in a multitude of areas including, processing orders and producing shipping documentation for multimodal shipments, preparing high-standard paperwork for registration dossiers, ensuring compliance with regulatory requirements, understanding diverse payment terms, interacting closely with internal teams and external customers, all of which will demonstrate your communication and problem-solving skills. This role is an ideal environment to grow professionally, take on new challenges, and provide a great addition to your CV and boost to future career prospects.

Tasks

- Order administration, documentation and assisting with financial paperwork.
- Contribute to compliance with tariff codes, import duties, and market documentation.
- Assist the team with shipments to minimise risks and costs, ensuring smooth logistics.
- Record and monitor monthly KPIs for order and registration administration.
- Contribute to continued development of processes that support the company's growth.
- Assist with Health, Safety, and Environmental (HSE) responsibilities

Personal Skills

- Degree in business management, international management or other relevant
- Excellent communication and interpersonal skills
- Manage time effectively and know how to prioritise tasks
- Strong IT skills including Microsoft suite

The Host Company

The host company is made up of business units, all working together to develop sustainable food solutions. Headquartered in Northern Ireland, their global team of nutritionists use science and technology to ensure the most effective and efficient utilisation of nutrients in the production of food. Manufacturing across three production sites, selling and delivering to over 50 countries worldwide and to over 20 states within the US, this host's vision is to be the leading provider of integrated environmental, animal and human health solutions. Their strategy of "One Health: From Soil to Society" sees food production and health provision as one inter-connected value chain, where all elements are linked so that they can positively influence the environment, animal and human health and wellbeing.
